FUTURE ICONS

WASTE TILE CUBE CABINET The cube scrap wood tile cupboards are made from tiles as we presented them last April during the Salone in Milan. This time, however, the tiles are square and so are the cupboards. The cubes with three drawers or one drawer can be placed alongside or on top of each other. The hidden handle, which we introduced for the enormous beam cabinets, remains virtually untraceable through the grout of the tiles.

name	waste tile cube cabinet in scrapwood / no.6 & 8
year	2016
size	73 x 73 x 73 cm
material	scrapwood
rrp	euro 9.350
