

THE INSIDE OUT BENCH

The inside out bench we presented last in April in Milan. Now we have made another one, but we are going to show some variations on the inside out theme: a totem of square blocks and regular inside out blocks that you can use however you like. Turning a tree inside out is very efficient in terms of wood, and is a bit of fun for us, but not in terms of work. It costs a great deal of time and attention to turn a trunk inside out.

art nr+name	in side out bench - totem 4
year	2018
size	36 x 36 x 36cm
material	oak
rrp	€3.200,00
