### **78 x 78 WASTE WASTE DIFFERENT TABLE**

What Rossana had in mind required a table. We made a new one. It has actually become more of a modular system of a number of rather fancy tables. They are all 78x78x78 centimeters and built from cubes of 78x78 millimetres – that is, ten blocks high and wide

### **78 x 78 WASTE WASTE DIFFERENT TENERIFE**

**TABLES** The furniture we made was selected by Gabi Roca and can now be seen in the restaurant of the cable car station at the foot of the Teide, the largest volcano on the island. Because the enormous windows Gabi has had installed make the breath-taking natural surroundings a ubiquitous part of the space and the experience. The colours of the 60x60 waste waste furniture and the oak and scrap wood selected by Gabi fit in perfectly with the surroundings.

**80 x 80 WASTE WASTE DIFFERENT FOR CIBONE/WELCOME** Especially for the 15th anniversary of our friends from CIBONE/WELCOME we made these 80x80 “white edition” tables.

CIBONE/WELCOME was our very first foreign PHE reseller and we’ve been working together with them for almost the same amount of years as their anniversary. It’s been absolutely wonderful all these years and a great celebration with hopefully many more years to come.

### **55 x 55 NYC WASTE MIRROR LIQUOR CABINET**

Especially for the Salone 2017 we have made a cabinet that almost nobody needs, so it's really chic.

The little cabinet is made from the worst pieces of the NYC water tower wood. The withened and crackled surface resembles the skin of a prehistoric reptile.
